PROFESSIONAL SUMMARY

FULLSTACK DEVELOPER with 2 years of experience in agile environments, specialized in creating scalable and efficient solutions, applying best practices such as the SOLID methodology.

In addition to my technical skills, I have a strong focus on design and usability, ensuring intuitive and attractive interfaces for a better user experience.

I am looking for new challenges where I can continue growing and contribute my knowledge in web development. knowledge in web and backend development.

WORK HISTORY

FullStack Developer
Baufest
August 2022 - April 2024

Internal Logistics System - D&C Logistics
I implemented key improvements in the system, optimizing workflows and developing new functionalities.

In the frontend, I used **Angular** and **Bootstrap** to create responsive components and interactive forms that facilitated order management and shipment tracking.

In the backend, I worked with **.NET**, applying **SOLID principles and Clean Architecture**, developing **RESTful API** services integrated with other internal systems. I optimized queries and stored procedures in **SQL Server** to improve data access.

I followed a repository pattern to organize the code and used **Git**, **TeamCity**, and **Octopus** for version control and deployment. Additionally, I conducted integration tests with **Postman** to ensure compatibility between internal systems.

Internal Sports Betting System - Baufest
I developed an application for the Qatar 2022 World Cup that was used by more than 400 employees, allowing them to make predictions and participate in friendly bets. The system was a success, remaining operational without interruptions throughout the entire championship.

In the frontend, I used **React** to design a dynamic and intuitive interface.

In the backend, I implemented business logic with **.NET** and managed real-time data with **SQL Server**, ensuring optimal performance and a seamless user experience.

SKILLS

React	TypeScript	.NET	Postman
Next	Tailwind	SQL SERVER	Octopus
Angular	Node.js	MongoDB	TeamCity

English : Intermediate **B1**

EDUCATION

High School Diploma: Diversificación Físico-Matemático
Liceo No. 43

ADDITIONAL STUDIES

ASP .NET Core - Solid and Clean Architecture - Udemy
SQL Server: Desde Cero a Nivel Profesional - Udemy
Angular: De cero a experto - Udemy
Java & **React** Bootcamp - Baufest
User Experience (UX) Design - Google
Python Jóvenes a Programar - Plan Ceibal
.NET Jóvenes a Programar - Plan Ceibal
