PROFESSIONAL SUMMARY

Fullstack Developer with 2 years of experience in agile environments, specialized in building scalable and efficient solutions following best practices such as the SOLID principles. In addition to my technical skills, I have a strong focus on design and usability, ensuring intuitive and attractive interfaces for a better user experience. I'm looking for new challenges where I can continue growing and contribute my knowledge in web and backend development.

WORK EXPERIENCE

Mar 2026 – Act. Full Stack Developer, Neowyze · Remote

- Design and development of interactive interfaces using React.js and Astro.
- Integration of external APIs with NestJS.
- Implementation of AI-driven automation to accelerate development, enhance auditing, and optimize software testing.

Oct 2022 – Act. FullStack Software Engineer, CaminoCode · Remote

- Design and development of interactive interfaces using React.js and Next.js..
- Integration of external APIs with NestJS and Go.
- Performance optimization and scalability improvements in SaaS platforms with PostgreSQL and Redis.
- Contribution to the redesign of CaminoCode's logo, enhancing visual identity and branding consistency.
- Use of Git and GitHub for version control and deployment on Vercel/Railway.

Aug 2022 – Apr 2024 Fullstack Developer, Baufest, Montevideo, Uruguay

Internal Logistics System – D&C Logistics

- Implemented key improvements to optimize workflows and add new features.
- Built responsive components using Angular and Bootstrap.
- Developed backend with .NET following SOLID principles and Clean Architecture.
- Created RESTful services and optimized SQL Server queries.
- Used Git, TeamCity and Octopus for version control and deployment.

Internal Betting System – Qatar 2022 World Cup

- Developed an app used by 400+ employees to make predictions and friendly bets.
- Built a dynamic and intuitive frontend with React.
- Created backend logic in .NET and managed real-time data with SQL Server.

SKILLS

Frontend	React, Next.js, Angular, Tailwind, TypeScript
Backend	Node.js, .NET
Databases	SQL Server, MongoDB
Languages	English (Intermediate B1)

EDUCATION

High School: Diversificación Físico-Matemático, Liceo N° 43

ADDITIONAL STUDIES

ASP .NET Core - SOLID and Clean Architecture (Udemy)
SQL Server: Desde Cero a Nivel Profesional (Udemy)
Angular: De cero a experto (Udemy)
Bootcamp de Java y React (Baufest)

User Experience (UX) Design - Google
Python - Jóvenes a Programar (Plan Ceibal)
.NET - Jóvenes a Programar (Plan Ceibal)
